PROFESSIONAL SUMMARY

Computer Science undergraduate with experience building full-stack web applications using React, Node.js, Express.js, Flask, MongoDB, and REST APIs. Strong foundation in Data Structures & Algorithms, backend development, and modern software engineering practices with proven success in national-level hackathons and software engineering internships.

EDUCATION

Gandhi Institute of Engineering and Technology University

Bachelor of Technology in Computer Science & Engineering

Gunupur, Odisha

2023 – 2027

- **CGPA:** 7.35/10
- **Relevant Coursework:** Data Structures & Algorithms, Operating Systems, Database Management Systems, Computer Networks, Object-Oriented Programming

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, Flask, REST APIs

Databases: MongoDB, MySQL

Developer Tools: Git, GitHub, Linux, Postman, Visual Studio Code

Cloud & Deployment: Vercel, Google Cloud Platform (Basics)

Libraries: Pandas, NumPy, Matplotlib

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

EXPERIENCE

Python Backend Developer Intern

Asirudh Software Pvt. Ltd.

May 2025 – Jul 2025

Bhubaneswar, Odisha

- Contributed to the development of the Bhatti Pizza web application as part of a collaborative development team.
- Implemented user authentication features with guidance from senior developers and integrated them into the application workflow.
- Configured MongoDB Atlas for cloud database connectivity and assisted in integrating it with the application.
- Developed responsive frontend pages and collaborated with team members to improve the application's user interface.

Frontend Development Intern

MKVI Solutions

May 2025 – Jun 2025

Pune, Maharashtra

- Observed the development workflow of client-based React applications in a professional environment.
- Assisted the frontend team in understanding component-based architecture, responsive UI development, and collaborative software development practices.

PROJECTS

Odde Search | *React, Vite, Tailwind CSS, Axios, TanStack Query*

- * Developed a responsive web search application that fetches and displays real-time search results using third-party APIs.
- * Implemented intelligent client-side caching, pagination, and asynchronous data fetching using TanStack Query.
- * Built features including dark mode, search history, loading states, and error handling to improve user experience.
- * Deployed the application on Vercel with a responsive interface optimized for desktop and mobile devices.

Samadhan | *MERN Stack*

- * Developed a civic issue resolution platform as part of **Smart India Hackathon (SIH) 2025**.
- * Designed user-friendly interfaces for citizens to submit and track public grievances.
- * Implemented backend APIs and integrated MongoDB for efficient complaint management.
- * Collaborated with a multidisciplinary team to design and present a scalable solution for real-world governance challenges.

ACHIEVEMENTS

Won **1st Prize** at the **6th Technovation Hackathon** hosted by Sharda University (2025).

Secured **12th Rank Nationwide** in the **HackNagpur 2.0 Hackathon** organized by GDG Nagpur (2026).

Participated in the **Bharatiya Antariksh Hackathon** organized by ISRO (2025), collaborating on technology-driven solutions for real-world challenges.

Served as the **Graphic Designing Lead** of the AIML Club at GIET University, contributing to technical events and community initiatives.

CERTIFICATIONS

Postman API Fundamentals Student Expert – Postman (Oct 2025)

IBM SkillsBuild – Getting Started with Artificial Intelligence (Dec 2025)

Enhance Teaching and Learning with Microsoft 365 Copilot Chat – Microsoft (Dec 2025)

Full Stack Web Development – YHills (2024)
